Summary

Full Stack Developer specializing in the **MERN** stack (MongoDB, Express, React.js, Node.js) with expertise in building dynamic, scalable web applications. Proficient in Object-Oriented Programming (OOP) with JavaScript, Java, and C#. Passionate about efficient code, problem-solving, and adopting new technologies.

Skills Highlight

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS.
- **Backend:** Node.js, Express.js, RESTful APIs, WebSockets, Prisma.
- **Databases:** MongoDB, PostgreSQL, MySQL.
- **Programming Languages:** JavaScript, Java, C#, Python.
- **Version Control:** Git, GitHub.
- **Software Development Concepts:** OOP, Functional Programming, Design Patterns, Asynchronous Programming.
- **Software Methodologies:** Agile, Waterfall, DevOps.
- **Soft Skills:** Problem-solving, Analytical thinking, Adaptability, Time management, Communication.
- **Languages:** Fluent in English (APTIS-certified), Basic understanding of French.

Experience

Full-Stack Developer Intern, 3E Tech 01/2025 – 03/2025

- Developed and enhanced key features in the company's main project using ReactJs, TypeScript, NodeJs, ExpressJs, and Prisma.
- Collaborated with a development team to improve scalability and maintainability of web applications.

Front-End Developer Intern, Two Of Us L.L.C 04/2024 – 08/2024

- Built responsive React.js applications with a focus on UI/UX and user engagement.
- Contributed to real-world projects, integrating APIs and dynamic web applications.

Freelance Web Developer 10/2023 – Present

- Designed and developed web applications using MongoDB, Express, React, and Node.js.
- Delivered customized solutions, optimizing performance and user experience.

Video Game Plugin Developer 10/2022 – Present

- Created custom plugins for Minecraft using Java and the Spigot framework, enhancing game mechanics.
- Developed Node.js-based plugins for World of Tanks Blitz (WOTB), improving game functionalities.

Certificates

Full-Stack Bootcamp Champion, Techlarious Academy 07/2023 – 10/2023

- Intensive training in MERN Stack: MongoDB, Express, React, Node.js
- Developed real-world projects applying full-stack development principles

Projects

Selected Projects – Full list available at mmchahine0.github.io/#projects

- **Bloom and Bottle** – A deployed e-commerce platform for perfumes and samples, featuring product exploration, order management, and admin tools for product, collection, and feedback management. Built with React (TypeScript), Tailwind CSS, Shadcn, Node.js, Express, MongoDB, Redis, JWT auth, with deployments on Vercel and Render.
- **Healing Horizon Healthcare Platform** – A healthcare platform for appointment scheduling, online medicine purchases, and centralized medical records.
- **POS System** – A streamlined Point of Sale (POS) system with intuitive menu management, order processing, and role-based access control.

Education

Arab Open University, BS Degree in Computer Science 09/2020 – 05/2024
