Summary

Full-Stack Web Developer experienced in building modern, scalable web applications using React, TypeScript, and Node.js. Brings additional enterprise software development experience with Microsoft Dynamics 365 and Power Platform, including data modeling, business logic, integrations, and system design. Currently contributing to a large-scale enterprise project for a government client, applying software engineering principles to real-world business solutions.

Skills Highlight

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Shadcn UI.
- **Backend:** Node.js, Express.js, RESTful APIs, WebSockets, Prisma, JWT Authentication.
- **Low-Code / Enterprise Platforms:** Microsoft Dynamics 365, Power Platform (Power Apps, Power Automate), Dataverse.
- **Databases:** MongoDB, PostgreSQL, MySQL, Redis.
- **Quality & Testing:** Jest (unit & integration testing), Swagger (OpenAPI), Postman.
- **Cloud & Dev Tools:** Git, GitHub, Docker (basic), Vercel, Render.
- **Programming Languages:** JavaScript, TypeScript, Java, Python, C#.
- **Core Concepts:** OOP, Data Structures, Design Patterns, Asynchronous Programming.
- **Methodologies:** Agile (Scrum), CI/CD basics.
- **Languages:** Fluent in English (APTIS-certified), Basic French.

Experience

Software Developer (Web & Dynamics 365), Netways 08/2025 – Present

- Developed enterprise-grade applications using Microsoft Dynamics 365, .NET, and React with strong emphasis on data modeling and business logic.
- Built automated workflows and integrations using Power Automate, applying event-driven and asynchronous programming concepts.
- Designed Dataverse entities, relationships, and role-based security models.
- Collaborated within Agile teams on a confidential large-scale government project, ensuring performance, security, and compliance.

Full-Stack Developer Intern, 3E Tech 01/2025 – 03/2025

- Developed and enhanced production features using React.js and Node.js, contributing to improved performance and cleaner codebase.
- Improved application scalability, maintainability, and API performance in collaboration with senior developers.

Front-End Developer Intern, Two Of Us L.L.C 04/2024 – 08/2024

- Built responsive React.js interfaces with a strong focus on UI/UX and accessibility.
- Integrated REST APIs and contributed to real-world client-facing applications.

Freelance Web Developer 10/2023 – Present

- Worked directly with clients to gather requirements and deliver production-ready web solutions.
- Built authentication-protected APIs and responsive UIs for real use cases.

Certificates

PL-200: Microsoft Power Platform Functional Consultant, Microsoft 02/2026

- Certified in Power Platform solutions, including Dataverse, Power Apps, Power Automate, and Dynamics 365 customization.

Full-Stack Bootcamp Champion, Techlarious Academy 07/2023 – 10/2023

- Intensive hands-on training in MERN Stack development.

Projects

Selected Projects – Full list at mmchahine0.github.io/#projects

- **Bloom and Bottle** – Full-stack e-commerce platform featuring authentication, product filtering, cart, orders, and admin dashboard. Built with React (TypeScript), Tailwind CSS, Shadcn UI, Node.js, Express, MongoDB, Redis caching, and JWT authentication. Deployed on Vercel and Render.
- **Healing Horizon Healthcare Platform** – Healthcare web platform for appointment scheduling, online medicine purchases, and centralized medical records.
- **POS System** – Point of Sale system with role-based access control, order processing, and product management.

Education

Arab Open University — B.S. in Computer Science

09/2020 – 05/2024
